

COLOR IS THE NEW BLACK

Be it sunflower yellow or fire-engine red, as well as everything else in between...Alno's exclusive NCS high-gloss color system now gives the designer a palate of over 1200 colors to choose from. A designer's dream come true...the AlnoGrand is available in every color imaginable in a hard-wearing, high-gloss lacquer finish. The NCS system provides for a consistent color application throughout the kitchen as all visible surfaces are covered in a seamless lacquer.

The Alno approach to kitchen design is to think first about the fundamental aspects of space to the functional necessities of food preparation as well as allowing for the personal needs of the homeowner. Every detail is evaluated and measured, from the relevance of the largest baking dish to the smallest measuring spoon, as to its effect on the balance and harmony of the whole.

Founded in 1927 by Albert Nothdurft, Alno has continued to create simple kitchens of form and function that are the very essence of simplified living. The Alno system allows you to create personalized living environments that reflect you and your lifestyle.

Alno is available through architects, interior designers and selected kitchen specialists. Please visit www.alnosandiego.com for additional product information and specifications.
